Free Historical & Genealogical  
Research Resources

<http://www.cagenweb.com/yolo/>

Online access to a variety of free genealogically- and historically-related information regarding those who resided in Yolo, California, during their lifetimes.

---

## History of the USGenWeb Project:

In March and April 1996, a group of genealogists organized the Kentucky Comprehensive Genealogy Database Project. The idea was to provide a single entry point for all counties in Kentucky, where collected databases would be stored. Volunteers were found who were willing to coordinate the collection of databases and generally oversee the contents of the web page. As the Kentucky project proved to be a success, it was decided to start a page for each of the remaining states, and as with the Kentucky project, volunteers were found to host the state pages.

The Yolo County, California Project began in November 1996. The first Yolo County Coordinators were Roger and Roberta Peoples. Peggy B. and George (Pat) Perazzo assumed responsibility for the Project in June, 1999.

The purpose the web site is to provide genealogy and local history information, links, resources, records, photographs, and message boards for people researching their roots in Yolo County.

This is a non-commercial, totally volunteer project intended to benefit all researchers.

## Online information includes:

- List of Resources at the Yolo County Archives.
- History of the Yolo County Indians.
- History and location of the Yolo County cemeteries.
- 1850 Yolo County Census Images.
